More about the trail . .

The antique shops and malls are housed uniquely. Several shops are in period homes: cottages, bungalows, farmhouses, and an authentic Alabama log cabin. Others are in historical buildings that were once country stores, banks, post offices, pharmacies, and hardware stores.

Many items are from family estates. Occasionally, items are original pieces from antebellum homes. One may find primitives your grandmother could have owned. European and Oriental imports, selected by local antique dealers while traveling abroad or brought here by early settlers, are also found in our state.
